

Learn to Weld

Weekend Welder Workshops

156 Byers Creek Road

Mooresville, NC 28117

704.799.3869

www.VisitPIT.com

PIT's 2-day welding workshops are perfect for the self-designated "beginner" welder or hobbyist. Held at PIT's welding shop, participants will enjoy two days of shop and classroom time. Each program is designed for those who wish to learn the techniques and intricacies of the specific welding process (MIG, TIG, Stick) that each workshop focuses on in various different applications. Participants will have significant hands-on time with top-notch welding equipment and pre-cut practice materials. Instruction from PIT's Pit Weld U instructors will ensure that those taking part in the workshop will get the most out of their time. Participants can expect to leave with the confidence and ability to produce quality welds in their garage or shop.

Where to Stay:

Coming in from out-of-town? A block of rooms is reserved at the [Holiday Inn Express & Suites](#) at a discounted rate of \$99/night. Book online using the provided link below or contact the hotel directly and mention that you're in town for PIT's Welding Workshop to receive the discounted rate during your stay. Reservations must be received by three weeks prior to the workshop date to guarantee rate and availability.

Hotel Info:
[Holiday Inn Express & Suites](#)
130 Norman Station Blvd
Mooresville, NC 28117
704-662-6900

Date & Time:

MIG Welding Workshop Dates: April 17-18, 2021 & July 24-25, 2021

PIT's 2-day MIG Welding Workshop is the ideal family outing! Designed for the do-it-yourself individual/family who'd like to learn the basics of the MIG welding process, participants will learn about welder setup and components, and welding technique and more. Additionally, participants will have the opportunity to build useful take-home projects themselves as part of the experience.

Intro to TIG Welding Workshop Dates: Sept. 26-27, 2020, January 30-31, 2021 & Sept. 11-12, 2021

PIT's 2-day Intro to TIG Welding Workshop is designed for the entry level welder or hobbyist. Held in collaboration with Mike Furick of Furick Cups/DOG Fabrication, the course focuses on the basic science behind TIG welding, machine setup and operation and proper welding techniques. Participants will learn to weld on mild steel and aluminum applications and will have ample hands-on time as the workshop is limited to a maximum of 20 participants.

Advanced TIG Welding Workshop Dates: October 24-25, 2020

PIT's 2-day Advanced TIG Welding Workshop is perfect for the hobbyist with prior welding experience who'd like to take their skillset to the next level. Focusing primarily on stainless steel and chrome moly applications, participants will have significant hands-on time and will learn the importance of purging along with proper techniques on unique applications - exhaust, thin wall steel/sheet metal and more.

Cost:

\$295/participant – maximum of 20 participants.

Meals:

Meals are not included in the price; however, there will be a food truck on-site both days providing quick, convenient meal options for those in attendance. Participants are also welcome to get lunch elsewhere as there are a variety of restaurants within a few miles of PIT. One hour will be provided for lunch each day. Refreshments will be provided for attendees during the course.

What to Bring:

Participants are required to provide their own personal protective equipment (PPE) – including welding helmet, welding jacket or sleeves, long pants and close-toed shoes (no athletic attire permitted). PIT will provide safety glasses, ear plugs, t-shirt and all practice materials.

Registration:

Simply complete and submit the online registration form with your payment at www.visitpit.com/welding-workshops. Seats are filled on a first-come, first serve basis. Participants must be 14 years old to take part. **Participants who are under 16 are only allowed to participate with a parent/guardian who has also registered.**
