

Advance YOUR career!

Become a Certified Welder

Improve Your Career Opportunities Today!!

PIT Instruction & Training, LLC (PIT) is an American Welding Society (AWS) Accredited Testing Facility, offering AWS Welder Qualification Testing.

PIT Instruction & Training, LLC (PIT) is an American Welding Society (AWS) Accredited Testing Facility, offering welder qualification testing for AWS certification. The elite status allows PIT to be included as one of only a few locations in the state of North Carolina, and one of approximately 150 nationwide, with an AWS Certified Welder program.

This program is designed for individuals wishing to certify under specific American Welding Society code, adding credibility and the opportunity for advancement to their professional welding career. AWS Welder Qualification Testing is available to any experienced welder, graduates of PIT's well-regarded Pit Weld U Powered by Miller Welders welding courses, and those who have taken welding courses elsewhere.

Companies that wish to certify or maintain certification for their staff under American Welding Society code can do so through PIT's welder testing. Whether current staff members are in need of certification or potential new-hires need to obtain certification to gain employment, PIT can help set up a fully customized program to fit your specific needs. Testing can also be conducted on-site to reduce employee downtime.

- *** Retests must be scheduled and completed within six (6) months of original testing date. Not all tests qualify.
- **** Contact PIT to inquire about pricing for specialty code and/or metal testing and availability.

AWS Fees

A \$50 processing fee is charged by the AWS for each certified welder application submitted. Pricing listed above includes this fee.

Testing Dates

Tests are scheduled on the third Saturday of each month, beginning at 7:30am. Each testing date is limited to twelve (12) applicants and filled on a first-come first-serve basis. Individuals arriving more than 15 minutes late will not be permitted to test and must reschedule.

Registration & Payment

All paperwork and full payment must be submitted no later than one week prior to the scheduled test date. Most major credit/debit cards are accepted. Payment may be made over the phone or in person at PIT's main campus located at 156 Byers Creek Rd, Mooresville, NC 28117. If PIT is provided written notice one week prior to the testing date, then testing fees may be refunded, except for a non-refundable \$100 deposit. All fees are non-refundable after this deadline.

Gear & Materials

Individual must provide their own personal protective equipment (PPE) including, but not limited to a welding helmet, welding jacket or sleeves and welding gloves, safety glasses, ear plugs, long pants (jeans, Dickies, or similar) and steel toed/leather shoe or work boots. Individuals arriving without appropriate gear will not be permitted to test and must reschedule.

Company / Group Testing

Company and group testing is available and can be conducted on-site as needed. Contact Trent Schanen at 704-799-3869 ext. 115 or trent.schanen@VisitPIT.com for more details. Large groups may qualify for discounted rates.

Testing Location

AWS Welder Qualification Testing is held at PIT Instruction & Training's Pit Weld U welding shop located at 133 Byers Creek Rd, Suite C, Mooresville, NC 28117.
